

# Brezza Chair Series Options and Upgrades

The **Lifeform® Brezza Series Chairs** are available with the following options and upgrades:

**Covered Mesh Back** provides color coordination and remains breathable when upholstered in your choice of fabric, leather, or perforated leather.

**Enameled Frame** adds color to the back and base with a durable powder coating that is baked on for a tough, scratch resistant and lustrous finish. See samples for selection of colors.

**Polished Aluminum Base** adds sleek style and durability to any chair.

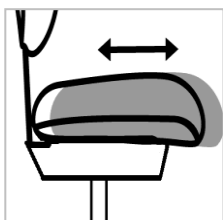

**Casters** are available to suit every taste, application and flooring type.

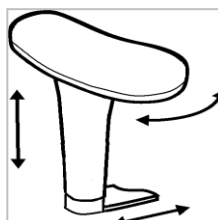

**Height Adjustable Headrest** available in black vinyl or your choice of leather, suede or fabric coverings to match your chair.

**Coccyx Cutout** relieves tailbone pressure. The rear section of foam is removed and upholstered to match the seat.

**Seat Depth Adjustment** is available for those who prefer variable depth in the seat.

**Rotary Arm Pads** swivel to suit any task or activity.
