

Selecting the Right Caster for Your Chair

STANDARD Dual Wheel Hooded Caster:
This glass reinforced nylon caster is standard on all Lifeform chairs. It is recommended for commercial or residential use on short pile carpets and chair mats. Not recommended for hardwood or tile floors.
Wheel Diameter: 2 1/8"
Caster Height: 2 1/2"

ALL CHROME Dual Wheel Caster:
This decorative all chrome (body and wheels) caster is constructed of zinc alloy and is recommended for residential use on short pile carpets or chair mats. PLEASE NOTE: NOT recommended for use on hardwood floors, as it will leave marks and indentations on the floor.
Wheel Diameter: 2"
Caster Height: 2 3/8"

SOFT Dual Wheel Hooded Caster:
Glass reinforced nylon with soft polyurethane coating for commercial or residential use on hard surfaces like tile, slate, concrete or "hard" hardwood such as maple. Not recommended for softer wood floors.
Wheel Diameter: 2 1/8"
Caster Height: 2 1/2"

CHROME HOODED Dual Soft Wheel Caster:
Decorative chrome hooded caster constructed of zinc alloy with soft polyurethane wheels intended for commercial or residential use on short pile carpets, tile or hard surface floors or chair mats. Not recommended for soft wood floors.
Wheel Diameter: 2"
Caster Height: 2 3/8"

LOCKING Dual Wheel Hooded Caster:
Glass reinforced nylon caster has a wheel "brake" to lock the caster in a fixed position. It is intended for commercial or residential use on carpet where stationary positioning with occasional mobility is required.
Wheel Diameter: 2"
Caster Height: 2 3/8"

VIPER Single Wheel Caster:
This decorative caster is made from steel, with ball bearings for durability. The Viper caster has softer wheels and is recommended for commercial or residential use on most floors including hardwood, tile, plush or flat carpet and chair mats. Viper casters will raise the seat height 1 1/2" higher than standard casters.
Wheel Diameter: 3"
Caster Height: 4"

DARCOR BLACK HD Single Soft Wheel Caster:
Heavy duty steel construction with ball bearings, suitable for 24/7 commercial or residential use on low pile carpet, concrete, tile & hardwood. Rubber wheels prevent damage to all types of hardwood floors and ensure smooth, quiet operation. Available in two sizes.
Wheel Diameter: 2" Wheel Diameter: 3"
Caster Height: 2 3/8" Caster Height: 4"

DARCOR CHROME HD Single Soft Wheel Caster:
Heavy duty steel construction with ball bearings, suitable for 24/7 commercial or residential use on low pile carpet, concrete, tile & hardwood. Rubber wheels prevent damage to all types of hardwood floors and ensure smooth, quiet operation. Available in two sizes.
Wheel Diameter: 2" Wheel Diameter: 3"
Caster Height: 2 3/8" Caster Height: 4"

SIT-BRAKE and COMPRESSION RELEASE BRAKE Casters:
Other items such as sit-brake and compression release brake casters are available by special request. If you have a requirement not shown on this page, please call 1 (800) 661-8568 or (403) 720-3966 for additional information.

GLIDES:
Glides are used to immobilize the chair when chair movement is not necessary.
Glide Height: 2 1/2"
